WOOD PURCHASING POLICY

This policy was developed in order to ensure compliance with responsible forestry standards.

This policy establishes the principles of environmental and social responsibility and is used by ZAO International Paper in all its wood purchasing operations.

In its wood purchasing operations, ZAO International Paper (further - Company) takes all reasonable efforts to comply with the following principles:

- 1) The Company does not purchase illegally harvested wood, complies with the requirements of the forest legislation of the Russian Federation, and applies wood supply tracking systems that ensure the legal origin of purchased wood.
- 2) The Company does not purchase wood harvested with violation of traditions and civil rights stipulated for in applicable legal acts.
- 3) The Company does not purchase wood harvested in forests where high conservation values are threatened by forest management activities. The Company ensures compliance with national environmental protection legislation and does not purchase wood harvested in specially protected nature areas.
- 4) The Company does not purchase wood harvested in forests converted to plantations or non-forest use.
- 5) The Company does not purchase wood from forests where genetically modified trees are planted.
