

MINERAL RESOURCES

Mineral Rights Conveyance Request Form

In the vast majority of instances where severed mineral ownership occurs, International Paper prefers to maintain its interest in these severed minerals. However, in cases where this may create some form of perceived conflict with the surface estate, we will occasionally consider a sale of all or a portion of our mineral interest with the understanding that this is an accommodation, not an obligation on our part as mineral owner. International Paper reserves the right to accept or reject any proposal submitted.

As a minimum, International Paper will require the greater of \$500.00 or \$100/acre plus a 5% retained royalty interest in any minerals it may agree to sell. Any and all conveyances will only be accomplished by a Quitclaim deed and certain minerals may be excluded.

By submitting a request, you are acknowledging concurrence with this policy. If you are not in agreement, please do not submit your request.

I agree: _____.

First Name: _____.
