

Our environmentally friendly ClimaShield coatings protect your products in the toughest environments, while also helping you achieve your sustainability goals.

FEATURES

100% RECYCLABLE - Meets the Fibre Box Association's certification standard for recyclability and repulpability

PERFORMANCE - provides excellent cold storage packaging for meat applications—meat doesn't stick to the box

COST EFFECTIVE - Recyclable ClimaShield boxes can be sold into existing OCC recovery systems

COMPATIBILITY - Works with existing equipment

BENEFITS

GREASE BARRIER - repels grease to maintain structural integrity

MOISTURE RESISTANT - stands up in wet environments

MEAT RELEASE - won't stick during the dumping process

CLEAR GRAPHICS - print comes out clear for important messaging

CURTAIN COAT ALTERNATIVES

WATER BARRIER: Water protection, printable surface, cold-set glue capable, ideal for poultry, beef, pork, and seafood.

FREEZE RELEASE: Water, grease, and oil resistant. Superior release properties for frozen meat.

SPECIAL COATINGS

COLOR COATING: Adds color to box design. Saves on plant clean-up, and provides color uniformity through rolls.

CUSTOMIZABLE PERFORMANCE COATINGS

MOISTURE AND GREASE BARRIER - Water and humidity protection, printable surface, cold-set glue capable, ideal for poultry, beef, pork, and seafood.

ANTI-ABRASIVE - Reduces the slide angle of ordinary liners. Scuff protection for plastic-wrapped food products.

SLIP PREVENTION - Increases the slide angle of ordinary liners. Anti-slip and anti-skid stabilization during handling and transport.

THINK *the* CUSTOMER
EVERY MOMENT. EVERY EXPERIENCE.
