 - Russia
 - North Africa

So many things of value are presented in, or surrounded by the substance of International Paper. Whether you want to grow retail sales or get your products safely through the global supply chain, our industrial packaging solutions bring innovation to and protection around your products. International Paper brings you value beyond a box, display or package – real value that’s material to your success™.

ClimaBin® provides strength and moisture resistance that delivers to your bottom line.

No more getting soaked by damaged inventory and damaged relationships with customers.

Bin failure is an industry-wide issue that has real costs. International Paper, the leader in innovating solutions for produce packaging applications, developed ClimaBin, a new triplewall container that is making a big difference in high-humidity and other wet conditions. Made with International Paper’s proprietary ClimaGuard® medium, ClimaBin protects inventory from costly bin failure.

ClimaBin bulk container’s impact on your bottom line comes from International Paper innovation.

THE BENEFITS OF CLIMABIN INCLUDE:

- Humidity resistance
- Wicking reduction to near zero and minimal water absorption
- Enhanced strength reduces bulge by 1-2” compared to standard bins
- Better stacking, with improved top to bottom compression of 14% or more

“We had fantastic results with the ClimaBin in a wet and humid 2016.”

INTERNATIONAL  PAPER

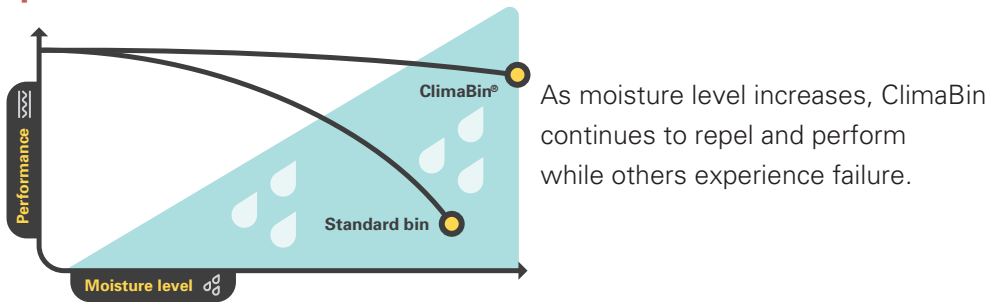

ClimaBin®

With proprietary ClimaGuard® medium technology

What does bin failure mean to you?

Even when you can't prevent moisture, you can prevent bin failure.

Other bins don't protect your product from wicking.

ClimaBin

Standard Bins

See how moisture can wick significantly in standard triplewall bins. ClimaBin outperforms standard bins, bringing you and your products safety and protection.

"The ClimaBin works really well! They stand tall, have more rigidity and stack better."

Tommy Glenos
Kids Choice

"The ClimaBin gives the grower peace of mind."
