Machine Features:

- Approximate Footprint
 - Single Mandrel: 7 x 5 x 7'
 - Dual Mandrel: 7 x 7 x 7'
- Dual mandrel
- Up to 40 trays per minute per mandrel

Box Features:

- Minimum box size: 6" x 4" x 3"
- Maximum box size: 12" x 8.5" x 6"

Machine Benefits:

- Minimal floor space impact with up to 80 boxes per minute throughput
- Flexibility in small box options **or** double your throughput
- Reduces shipping costs and the need for filler material while speeding up fulfillment
- Quick, no-tool size changeover

Box Benefits:

- Tri dimensionally stronger than a traditional RSC and provides greater stacking strength
- Flat bottom design
- Greater protection for your product than a traditional RSC
- Reduces sealing material by 50%

All of these benefits lead to a quick return on investment!
