OPTIBIN™ OPTIMAL DESIGN. OPTIMAL PERFORMANCE.

OPTIBIN UTILITY

Holds frames, necks, bones for transfer to mechanically separated chicken (MSC) or rendering; for short, in-house storage or movement.

OPTIBIN STANDARD

Ship WOGs, bulk leg quarters or cut parts short distances; for moving front halves to deboning operations or bulk product within a complex from first process to further process.

OPTIBIN HEAVY DUTY

Use for MSC, offal, wings, and deboned/boneless meat for external, longer hauls.

OPTIBIN MAX

Provides triple wall protection for your most extreme conditions - high load demands and long transportation distances, to meet specifications by end-use customers.

THINK *the* CUSTOMER
EVERY MOMENT. EVERY EXPERIENCE.
