

CPS Structural Design Services

The Commercial Packaging Solutions Design organization “Thinks the Customer” with every interaction by understanding what our customers value and then creating innovative packaging solutions to satisfy their product and performance needs. Utilizing our network of over 200 packaging engineers and 1.9 million designs in our database, we will customize our solutions to exceed our customer’s expectations.

What We Do

- **Practical Innovation**

We understand your business and how it drives creative and executive solutions.

- **A Sustainable Creative Process**

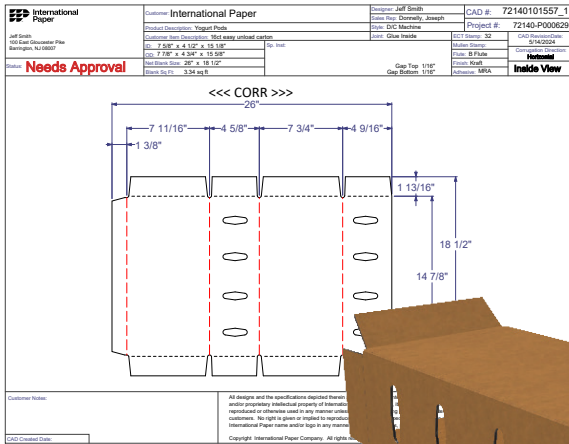

We consider board reduction and design optimization at every stage of our creative process.

- **Extensive Talent**

Best-In-Industry expertise with experience, specialized knowledge, relationships and resources.

- **Industry Leading Tools**

Our subject matter experts are teamed up with leading software, a consolidated database of designs and state of the art cutting tables.
