# Liquid Blast™ RTU

Liquid Blast RTU is a Ready-to-Use cleaner designed especially for anilox rolls.

Historically, corrugated printers cleaning practices have fallen into two categories: facilities using very little cleaning product to clean flexo presses and those that use very strong cleaning products. We have found an effective and economical way to clean and maintain corrugated flexo equipment. We recommend a thorough cleaning of flexo presses with Liquid Blast. The Liquid Blast will clean the whole ink delivery system: ink pans, hoses, anilox rolls, etc. Once the press is clean, it is very easy to keep the press clean using Liquid Blast RTU.

### How to Clean the Print Station and Ink Delivery System with Liquid Blast RTU

- 1) Pour half a bucket of Liquid Blast into an empty bucket.
- 2) Circulate Liquid Blast RTU through the inking system for a minimum of 10 minutes (you may run longer if desired).
- 3) The anilox roll should be rotating while Liquid Blast is flushed through the system.
- 4) Upon completion, recover all of the used material back into its original container. Replace lid on bucket and store for future use. Liquid Blast can be used many times, when needed top off used bucket of Liquid Blast with new.

- 5) Flush system with fresh water until water runs clear. During this process, Liquid Blast is also cleaning your pump and ink lines leaving the entire inking system clean.

### International Paper Company Overview

- Global producer of renewable fiber-based paper & packaging
- In business since 1898
- 52,000 employees worldwide
- Manufacturing operations in:
  - North America
  - Europe
  - Latin America
  - Russia
  - Asia
  - North Africa

*So many things of value are presented in, or surrounded by the substance of International Paper. Whether you want to grow retail sales or get your products safely through the global supply chain, our industrial packaging solutions bring innovation to and protection around your products. International Paper brings you value beyond a box, display or package – real value that's material to your success*
